ABOUT US

Rotawn Energy and Logistics Services Limited was established in 2007 as an indigenous Nigerian company offering tailor made solutions to the Oil & Gas, Maritime and Government Sectors. These solutions and services cover marine solutions, dredging, construction and procurement & logistics.

We have invested heavily in our staff and strategic alliances. These alliances are bonded by a single focus, to develop skills & offer superior services within the company around industry standard policies.

OUR MISSION

We will continue to execute and provide solutions utilizing industry best practices and equipment in order to meet and surpass our clients' expectations. Our solutions are met with the highest standards and are value driven.

OUR VALUES

We are proud to epitomise:
Uncompromising Integrity, Professional Competence, Safety, Highest Quality Standards, Cost Effectiveness.

OUR VISION

To be the long-lasting partner of choice to our clients and become the industry leader for providing turn-key solutions to our clients.

KEY TEAM PLAYERS

We employ diverse, experienced management executives and consultants who understand the industry of our clients, related industry issues, and have an in-depth understanding of business applications.

DREDGING

We provide specialized dredging services such as land reclamation, shoreline protection, stockpiling, canalization and capital dredging. Rotawn in tandem with its partner, Kariala Konsult has acquired extensive, worldwide experience in geotechnical and geophysical site investigations, surveys, studies, design, specification and supervision. The global nature of Rotawn's activities has provided comprehensive experience of the wide variety of dredging methods, types and sizes of dredging equipment. Rotawn also has experience of the survey equipment and methods used for monitoring and controlling dredging, reclamation and spoil disposal operations as well as for the determination of quantities for payment.

DREDGING

MARINE SOLUTIONS

Rotawn, in conjunction with its partners, is a leading solutions provider to the Marine/Offshore, Oil and Gas industry within Nigeria. Rotawn's marine division offers a wide range of vessels for charter such as offshore support vessels (PSVs, AHTS, MPS, DSVs, crew vessels, tugs and barges). FSIVs used for security and patrol and product tankers. All vessels are equipped with latest technological features including a fuel monitoring system. Dynamic positioning systems (DP1 and DP2) and are crewed by experienced personnel to ensure the highest safety measures are adhered to at all times.

MARINE SOLUTIONS

CONSTRUCTION

Rotawn provides construction services such as road/bridge construction, foundation engineering/harbor works, site preparation, new facility construction/facility renovation and marine construction. We have developed skills and extensive experience in road construction contracts of both urban and rural environments which range from minor improvement works to new road constructions through the remote regions of Niger Delta. We also specialize in different types of engineering works such as production of precast piles, deep foundation works, driven precast cast in place of concrete piles, steel tubes and H-piles, boring vibro compaction stone column installations. shore

CONSTRUCTION

LOGISTICS & PROCUREMENT

Our specialty procurement department sources products, equipment and services both locally and internationally either as direct purchaser and reseller or as agent for clients. The activities are based on creative and cost effective purchasing and cost control. Therefore procedures and structures are in place, from initial tender/bid request until delivery and incoming inspection of the goods. Our logistics team executes material and equipment delivery strategies for proposals and projects by offering purchase/hire/lease and service for automobiles, trucks and heavy equipment. As part of our service we also assist with local sales and importation of new and pre-owned vehicles, Trucks and heavy equipment.

LOGISTICS & PROCUREMENT

Rotawn Energy & Logistics Services Ltd is a wholly-owned Nigerian company, incorporated to provide, construction, main logistics and trading activities. Our construction services include, road/bridge construction, foundation engineering/harbor works, site preparation, a new facility or facility renovation, marine construction and shore protection for the Oil & Gas and Public Sectors

We have invested heavily in our staff and strategic alliances. These alliances are bonded by a single focus, to develop skills & offer superior services within the company around industry standard policies

Our Mission - We will continue to execute and provide solutions utilizing latest industry best practice and equipment in order to meet and surpass our clients' expectations. Our solutions will be Safe, Cost Effective and of best Quality

Our Vision - To be the long-lasting partner of choice to our clients and become the industry leader for providing turn-key solutions to our clients

Our Values - We are proud to epitomize:

- Uncompromising Integrity
- Professional Competence
- Safety
- Highest Quality Standards
- Cost Effectiveness

We employ diverse, experienced management executives and consultants who understand the industry of our clients related industry issues, and have an in-depth understanding of business applications. This outstanding team comprises of:

DOMINIC NWATOR	Chief Executive Officer
DANIEL NWATOR	Managing Director
DIKE IBE	Financial Director
RICHARD DANIELS	Executive Director

ROAD & BRIDGE CONSTRUCTION

Rotawn has developed skills and extensive experience in road construction contracts of both urban and rural environment that range from minor improvement works to new road constructions through the remote regions of Niger Delta.

Rotawn's road/bridge construction service is based on "hands-on" project management. Our strength is the ability to schedule concurrent short and long-term construction activities, and then effectively manage both for timely project completion. We consistently meet and beat our customers' construction deadlines. At Rotawn, quality will never be compromised.

FOUNDATION ENGINEERING & HARBOR WORK

Rotawn specializes in different types of engineering works such as Production of Precast Piles, Deep Foundation Works, Driven Precast cast in place of concrete piles, Steel Tubes and H-Piles, Boring Vibro Compaction, Stone Column Installations, Shore Protection, Jetty and Harbour Works, Dredging Work.

We assist our clients with their underground engineering work. Specific services include:

- Production and driving of precast piles of any length ranging from 3 meters to 48 meters and size from 275mm to 650mm.
- Bored pile of any depth and size usually from 350mm to 1200mm.
- Production and driving of precast piles of any length ranging from 3 meters to 48 meters and size from 275mm to 650mm.
- Driving of steel-cased piles and sheet piles for both off shore and on shore projects.
- Vibro floatation, soil compaction, etc.
- Bridge foundation works.
- Stone columns installation for storage tanks.

Basumoh tank farm project

Crane lifting 14m of sheet pile to be installed

Construction of Pile Foundation (Bore Pile) at Banana Island, Lagos

Formwork for ring beam construction at Port Harcourt Conoil Depot

Complete reinforced concrete apron behind shore wall

MARINE CONSTRUCTION AND SHORELINE PROTECTION

Rotawn constructs and maintains shore protection structures including jetties, groins, seawalls, breakwaters, and bulkheads in order to protect the coastline and the navigable water channels that can reach down to 100 meters. Early shore protection measures included jetties and groins constructed perpendicular to the shoreline for the purpose of lessening the impacts of erosion by reducing the rate of sediment transport along vulnerable coastlines.

Rotawn has invested heavily in procurement of world class next generation marine equipment for secured shoreline protection.

Our clients recognize our first class professional mode of operation & safety measures applied in ensuring that we don't end up causing erosion instead of protecting the shorelines.

Precast beam for reinforced concrete apron behind shore wall

SAND FILLING

As an industry leader in our chosen field, we have gone beyond the limitations of the private sector to the public sector.

We ensure that the appropriate CSD & Booster is used to optimize resources as well as meet up with client project deadline.

This in turn is achieved by availability of spares and parts ranging from suction/discharge pipes to all hydraulic & mechanical arts.

With our track record, we have shown that we can deliver any sand filling job, within record time.

Equipment and Machinery

Rotawn is well equipped in terms of machinery to carry out projects in all her areas of operations. Some of the equipment in our folds are listed below:

NO	QUANTITY	DESCRIPTION	TYPE
1	1 NOS	CRAWLER CRANE (25 TONS)	RB22
